

# Year 5

Hi all, what a great week we have had in year 5. We are willing to share what we have been learning about this week.

## English

In English we have been writing stories from different cultures using our senses, dictionaries and thesauruses to help us. We have also been writing them in a 'bear hunt' style. If you don't know what that is, it is where a person goes on an adventure and there are obstacles. Then they get chased back by an animal.

## Maths

In maths this week we have been learning the expanded column method. You use it to times 2 numbers and then adding the 2 answers together.

## Guided Reading

This terms book is called Street Child , it is where a child and his mum are living on the streets. One day the cops come and send them to the work house. We had to recover information from the text to answer questions.

## Science

In science we are learning about electrical circuits and the signs for:

bulb    buzzer    motor    battery    wire    switch (open and closed)

## Topic

In topic we have been learning about rivers , how they are formed , parts of it and what the parts are called. We made a river out of sand with all the parts in it.
