

Welcome to Year 3

In Science we have continued to look at solids, liquids and gases. We completed a very messy experiment last week melting chocolate and ice in our hands. This week we tried to use our scientific knowledge to help explain what was happening. We found out that the solids melted and changed into liquids.

Week:
18th- 22nd
March

In French we have been learning parts of the body. We sung head, shoulders, knees and toes in French to help us learn the new vocabulary. We have also begun to learn parts of the face. Les yeux- eyes. La bouche- mouth. Le nez- nose.
