

# Welcome to Year 3

## Geography-Explorers

In explorers we have been learning about Captain James Cook. He came from England. He travelled all around New Zealand. But then he crashed in to the barrier reef, which is in Australia. Cook and Drake discovered that the world wasn't flat. We plotted Drake's journey and found that he spent 3 years on the sea.

**Week:**  
**March**  
**4th – 8th**

House day 8.3.19 In house day we celebrated World Book Day and we could dress up as book characters with our books. We love reading books. We spent most of the day in our houses. We started off with our assembly we discussed the book called The Window. This was about how an environment changed over twenty years with pollution, buildings and cars. As a house team we then had to think about the impact if we had to lose our school field and make a new window book.
